

BRINGING MORE HOMES TO EAST VILLAGE

NOVEMBER 2018

getlivinggetlivinggetliving

EAST VILLAGE

East Village's history started before the London 2012 Games as part of the 2005 Stratford City Masterplan. This masterplan identified what is now E20 as an area of great regeneration opportunity.

In addition to the 3,000 homes built for the London 2012 Athletes' Village, this masterplan outlined around 2,000 further homes across East Village within five development areas. These homes will bring further regeneration, more residents, additional retail and commercial amenities and a greater buzz to our growing neighbourhood. These plots are shown on the model in Get Living's Welcome Office and on the map overleaf.

Construction on the first of these new developments, plot N08, started in 2016 and Victory Plaza's 482 homes for rent and ground floor retail and leisure space open in Spring 2019.

In December 2018 construction will start on development plot N06. More than 524 homes will be built within two towers connected by a striking sky bridge and two ten-storey pavilions. The ground floor will contain further retail and commercial space.

We are committed to working closely with our construction partner, Mace, to mitigate the impact on East Village residents as far as possible. We will continue to keep East Village residents updated as construction activity progresses - primarily through our development update emails. If you haven't already, please subscribe at corporate.getliving.com/developmentupdates

If you have any questions about our new developments please contact us at community@getliving.com or pop into the Get Living Welcome Office at 5 Celebration Avenue, E20 1DB.

East Village is a growing neighbourhood and a key part of the regeneration that is taking place in this part of East London. The first residents moved into East Village towards the end of 2013 and more than 6,000 people now call the former London 2012 Athletes' Village home. Over the coming years East Village is set to grow further.

Following on from the construction of Victory Plaza (on plot N08) Mace has been appointed as our N06 construction partner. They will continue to work closely with Get Living to minimise disruption to residents. As a key partner of the Considerate Constructors Scheme they have extensive experience of working in existing neighbourhoods.

N06 permitted hours for construction activity will be;

Monday to Friday 8am to 6pm
Saturday 8am to 1pm

Residents will be kept informed through the Get Living development update emails if any work is absolutely necessary outside of these hours.

Mace will have security staff on site 24/7, working closely with Team East Village to keep the site secure. Mace will provide regular updates on N06 directly to residents, primarily through a printed newsletter to all homes, with additional updates provided by Get Living's development update emails.
