

# Helping you to maintain your home

Maintaining your home doesn't have to be a chore. By keeping on top of it, you'll not only become a dab hand at DIY but you'll save on unexpected costs due to a lack of maintenance!

As a Get Living resident, we ask that you use your home in a "tenant-like" manor, meaning you're responsible for minor maintenance jobs such as cleaning shower-heads and washing machine filters, defrosting freezers and changing lightbulbs etc.

However, if DIY isn't for you, we're happy to help. Your relationship manager will help you triage the task and offer advice as to the best way forward.

We can assist with...
